

Dear Candidate or Senior Staff,

Please print the immigration survey below. Fill it out, sign it and fax it or mail it.

NumbersUSA's Immigration Grade Cards and Candidate Pages are the most viewed sources on the Internet for citizens wanting to know the immigration actions of Members of Congress and the immigration positions of people seeking to be elected to Congress.

If you want voters to know your immigration positions, you will want to return this survey to us as soon as possible. I hope the page for your race will have information from your survey.

NumbersUSA never endorses candidates. We recognize that voters mark their ballot based on many issues and judgments about the character and leadership of a candidate. What we offer on our Grade Cards and Candidate Pages is a way for voters to know which candidates are most likely to reduce overall immigration and which are most likely to increase it so they can factor that into their voting decisions.

As for our stance: See our positions at the end of the survey.

Thank you for returning the survey,

Roy Beck, President, NumbersUSA
1601 North Kent Street, Suite 1100

2010 Gubernatorial Candidate Survey on Immigration Issues

1. Should sanctuary policies be barred in your state and its municipalities so they can't shield illegal aliens from federal immigration laws and apprehension.

YES NO NOT TAKING A POSITION

2. Should your state bar government subsidies (i.e. mortgages, in-state college tuition) for illegal aliens.

YES NO NOT TAKING A POSITION

3. Should applicants for publicly-subsidized housing be required to submit proof of legal residency prior to being approved.

YES NO NOT TAKING A POSITION

4. Should all in-state government agencies and their contractors be required to use the Federal government's automated, rapid-response system (E-Verify) to verify the legal status of new and existing employees to remove the jobs magnet from illegal immigration.

YES NO NOT TAKING A POSITION

5. Should your state bar driver's licenses for illegal aliens?

YES NO NOT TAKING A POSITION

6. Should your state participate in the federal 287(g) program which trains law officers in the enforcement of federal immigration laws.

YES NO NOT TAKING A POSITION

I attest that my answers accurately represent my position on the issues addressed in this survey and understand that my responses will be made public on the NumbersUSA Candidate Surveys website.

Immigration Positions Favored by NumbersUSA

NumbersUSA supports the recommendations of (1) the bi-partisan U.S. Commission on Immigration Reform that called for immigration reductions to protect vulnerable American workers and their families and of (2) the President's Council on Sustainable Development that said immigration numbers had to be reduced to achieve an environmentally sustainable future.

With more than 15 million American workers unable to find a full-time job and with U.S. population growth (87% related to immigration) destroying approximately 1 million acres of natural habitat and farmland each year while further congesting American communities, NumbersUSA believes Members of Congress should be looking for ways to greatly reduce the current flow of nearly 2 million foreign workers and family members into the United States each year.

The Census Bureau states that U.S. communities -- which had 203 million people in 1970 and more than 300 million today -- will have to handle a half-BILLION people after mid-century, if immigration is not substantially reduced. Nearly all the growth will be the result of post-1970 immigration. NumbersUSA opposes the federal government forcing that kind of congestion and infrastructure over-load on local communities and the American people.

Those are our opinions. We will display your opinions fairly and accurately on our website. Please send us your opinions soon.
